

XVI WORLD CONGRESS OF PSYCHIATRY

"FOCUSING ON ACCESS, QUALITY AND HUMANE CARE"

MADRID, SPAIN | September 14-18, 2014

Proposals Addiction

000333: Cocaine, Alcohol and Benzodiazepines use over Agonist Opioid Treatment in patients with and without dual diagnosis. Clinical and Therapeutic aspects

chair Maremmani, Icro, - IT

speaker Pani, Pier Paolo, - IT

Opioid and Cocaine Addiction: A Unitary Perspective

speaker Maremmani, Angelo GI, - IT

Benzodiazepines Addiction in Agonist Opioid Treated Patients. Clinical and Therapeutical Aspects

speaker Pacini, Matteo, - IT

Heroin-alcohol polyabuse

000377: Questions arising from the association between substance misuse and schizophrenia or affective disorders

chair Alarcón, Renato, Mayo Clinic College of Medicine - US

speaker Dervaux, Alain, Centre Hospitalier Sainte-Anne - FR

Who are the patients with psychosis sensible to cannabis and who are cannabis users who develop psychosis?

speaker Gurpegui, Manuel, University of Granada - ES

Tobacco dependence as a meaningful variable in patients with schizophrenia or bipolar disorder: Sorting out a different subpopulation?

speaker Janiri, Luigi, Catholic University Medical School - IT

Anhedonia as a distinctive feature among alcohol or other substance misusers with dual pathology

speaker Maremmani, Icro, University of Pisa - IT

Lessons clinicians should learn from opiate dependence among patients with bipolar disorder or schizophrenia

XVI WORLD CONGRESS OF PSYCHIATRY

"FOCUSING ON ACCESS, QUALITY AND HUMANE CARE"

MADRID, SPAIN | September 14-18, 2014

000456: Novel psychoactive substances: from use to psychiatric disorders

- chair Torrens, Marta, - ES
- speaker Farre, Magi, - ES
Human Pharmacology of NPS
- speaker Schifano, Fabrizio, - UK
Psychiatric disorders and use of NPS
- speaker Gallegos, Ana, - ES
The EU early-warning system: NPS

000714: International Latino Research Partnership Screening Results

- chair Alegria, Margarita, CMMHR, Cambridge Health Alliance and Harvard Medical School - US
- chair Chavez, Ligia, University of Puerto Rico - US
- speaker Mozo Alegria, Xulian, Hospital Universitari Vall d'Hebron - ES
Predictors of Suicidal Behaviors in a Latino Sample
- speaker Chavez, Ligia, University of Puerto Rico - US
The Testing of the AC-OK with an International Sample of Latino Immigrants
- speaker Collazos, Francisco, Hospital Universitari Vall d'Hebron - ES
Comparison of HIV testing across primary care patients in Boston, Madrid and Barcelona
- speaker Lapatin, Sheri, CMMHR, Cambridge Health Alliance and Harvard Medical School - US
Barriers to treatment of dual pathology for Latino immigrants

000717: International Latino Research Partnership: Data Merging Results

- chair Le Cook, Benjamin, CMMHR, Cambridge Health Alliance and Harvard Medical School - US
- chair Baca-Garcia, Enrique, Hospital Universitario Fundación Jiménez Díaz - ES
- speaker Le Cook, Benjamin, CMMHR, Cambridge Health Alliance/Harvard Medical School - US -
An international comparison of episodes of substance abuse treatment among Latino immigrants in public hospital settings in Madrid and Boston
- speaker Baca-Garcia, Enrique, Hospital Universitario

XVI WORLD CONGRESS OF PSYCHIATRY

"FOCUSING ON ACCESS, QUALITY AND HUMANE CARE"

MADRID, SPAIN | September 14-18, 2014

- speaker Fundación Jiménez Díaz - ES
Comparison of costs of usual psychiatric care between Madrid and Boston sites
Qureshi, Adil, Hospital Universitari Vall d'Hebron - ES
- speaker An international comparison of substance abuse diagnoses in public hospital settings in Madrid and Boston
Carmona, Rodrigo, Hospital Universitario Fundación Jiménez Díaz - ES
Commonalities and differences in the challenges to treat dual pathology Boston, Madrid and Barcelona

000648: ABORDAJE DEL TRASTORNO MENTAL GRAVE Y ABUSO DE SUSTANCIAS (PATOLOGÍA DUAL) DESDE UN MODELO DE SALUD MENTAL COMUNITARIO

- chair Francisco, González-Saiz (SIMPOSIO AEN), UGC Salud Mental-Área de Gestión Sanitaria Norte de Cádiz - ES
- speaker Francisco, González-Saiz, UUGC Salud Mental-Área de Gestión Sanitaria Norte de Cádiz - ES
Aspectos epidemiológicos del abuso de sustancias entre pacientes con trastorno mental grave: implicaciones pronósticas.
- speaker Vicente, García-Vicent, UGC Salud Mental-Área de Gestión Sanitaria Este de Málaga-Axarquía - ES
Estrategias de intervención en pacientes con trastorno mental grave y abuso de sustancias comórbido: actuaciones desde el Proceso Asistencial Integrado TMG
- speaker María, Conde-Rivas, UGC Salud Mental-Área de Gestión Sanitaria Sur de Sevilla - ES
Modelos asistenciales para el abordaje de la patología dual: propuestas para un proceso de integración

XVI WORLD CONGRESS OF PSYCHIATRY

"FOCUSING ON ACCESS, QUALITY AND HUMANE CARE"

MADRID, SPAIN | September 14-18, 2014

000181: Get to Know You Better: Understanding Quality of Life in Substance Use

chair Zubaran, Carlos, University of Western Sydney - AU -

chair Clerici, Massimo, University of Milano Bicocca - IT -

speaker Zubaran, Carlos, - AU -

Quality of life and substance use: Current tendencies and beyond

speaker Lozano Rojas, Oscar, University of Huelva - ES -

Measuring the quality of life of substance users

speaker Krausz, Michael, - CA -

Quality of life and substance use among vulnerable urban populations

speaker Karow, Anne, University Medical Center Hamburg-Eppendorf - DE -

Quality of life during treatment for opioid dependence: Heroin versus methadone maintenance

speaker Iraurgi Castillo, Ioseba, University of Deusto - ES -

Quality of life in addictive disorders: Development of measurement tools in a multicultural context

000220: NOVEL FINDINGS ON THE EPIDEMIOLOGY OF ALCOHOL USE AND MISUSE AROUND THE WORLD: INVESTIGATING TRAJECTORIES, PHENOTYPES AND EMERGING PROBLEMS

chair Martins, Silvia S., Columbia University - US -

speaker Castaldelli-Maia, João M, University of São Paulo Medical School - BR -

DSM-5 latent classes of alcohol users in a population-based sample: results from the São Paulo Megacity Mental Health Survey, Brazil

speaker Keyes, Katherine M, Columbia University - US -

Racial/ethnic differences in alcohol use across the life course in the United States: an explanation of health disparities?

speaker Melchior, Maria, Université Versailles - FR -

Trajectories of alcohol abuse from adolescence to young adulthood: the modifying role of gender.

speaker Ghandour, Lilian A., American University of Beirut - LB -

Harmful Drinking among Youth in Lebanon: A Growing Practice and Concern.

speaker Degenhardt, Luisa, University of New South Wales - AU -

Association between the contexts of adolescent alcohol use and binge drinking in Australia: Prospective cohort study.

000225: Translational approach to optimization of treatment with anti-craving medication in alcoholics: genetic, metabolic, human laboratory and experimental studies of predictors of acamprosate response.

chair Franck, Johan, Karolinska Institutet - SE -

XVI WORLD CONGRESS OF PSYCHIATRY

"FOCUSING ON ACCESS, QUALITY AND HUMANE CARE"

MADRID, SPAIN | September 14-18, 2014

speaker Karpyak, Victor, Mayo Clinic - US -

Clinical and genetic markers associated with the length of sobriety in human alcoholics treated with acamprosate.

speaker Nam, Hyung Wook, - US -

High serum glutamate levels associated with positive response to acamprosate in human alcoholics

speaker Hammarberg, Anders, Karolinska Institutet - SE -

The effects of acamprosate on alcohol-cue reactivity and alcohol priming in dependent patients

speaker Soderpalm, Bo, Sahlgrenska Academy - SE -

How can the predictive value of animal models of alcoholism be improved?

000324: Cannabis and Mental Health: from laboratory research to clinical studies

chair Javier , Fernández Ruiz, Universidad Complutense de Madrid - ES -

speaker Luis, Callado, University of the Basque Country - ES -

"Involvement of the endocannabinoid system in schizophrenia: evidence from human brain studies"

speaker Maria Paz, Viveros, Universidad Complutense - ES -

"Adolescent cannabis exposure and the risk of psychiatric disorders. Insights from animal models"

speaker Rafael , Maldonado, Universidad Pompeu Fabra - ES -

New evidences of the mental alterations induce by cannabis

speaker Luis Alfonso , Núñez Domínguez, Universidad de Navarra - ES -

Cannabis use and affective disorders

000339: Screening, Diagnosis and Treatment of Patients with ADHD and Addiction

chair van den Brink, Wim, Academic Medical Center/University of Amsterdam - NL -

speaker van de Glind, Geurt , Trimbos institute - NL -

Screening and diagnosis of ADHD in treatment seeking substance use disorder patients

speaker Vedel, Ellen, Jellinek institute - NL -

Integrated cognitive behavioral treatment of ADHD and addiction

speaker Crunelle , Cleo , University Antwerp - BE -

Why patient with ADHD and co-morbid addiction do not respond to methylphenidate

speaker Matthys, Frieda, Vrije Universiteit Brussel - BE -

Guideline for the screening, diagnosis and treatment of ADHD in Substance Use Disorder patients

speaker Joostens, Peter, Broeders Alexianen Psychiatric Hospital - BE -

Barriers to the implementation of a guideline for recognizing and treating

XVI WORLD CONGRESS OF PSYCHIATRY

"FOCUSING ON ACCESS, QUALITY AND HUMANE CARE"

MADRID, SPAIN | September 14-18, 2014

adult ADHD in patients with SUD

000403: Drug Misuse in Immigrant Communities in Europe

chair Najim, Hellme, - UK -

speaker Najim, Hellme, - UK -

Drug misuse profile in immigrant communities in England.

speaker Schouler-Ocak, Meryam, - DE -

Drug misuse profile in immigrant communities in Germany

speaker Van Loon, Peter, - NL -

Drug misuse profile in immigrant communities in The Netherlands

speaker Qureshi., Adel, - ES -

Drug misuse profile in immigrant communities in Spain

000416: "NEURAL SUBSTRATES FOR THE ACUTE AND CHRONIC EFFECTS OF CANNABIS IN MAN: IMPLICATIONS FOR PSYCHOSIS"

chair Martin-Santos, Rocío, Hospital Clínic, IDIBAPS, CIBERSAM, Barcelona - ES -

speaker Bhattacharrya, Sagnik, Institute of Psychiatry, King's College, London - UK -

"Acute effects of the different cannabinoids on brain function- examination of the state of the art evidence"

speaker Bossong, Matthijs, Rudolf Magnus Institute of Neuroscience - NL -

"Effects of acute administration of Δ^9 -tetrahydrocannabinol on dopamine release in the human striatum"

speaker Batalla, Albert, Clinical Institute of Neuroscience, Hospital Clínic, University of Barcelona, Barcelona - ES -

"Brain impact of chronic cannabis use: genetic influence of dopamine regulating genes"

000435: Re-thinking addiction

chair Elsheshai, Adel, Alexandria University - EG -

speaker Rady, Ahmed, - EG -

Re-thinking addiction 1

speaker Abdel Karim, Ahmed, - EG -

Re-thinking addiction 2

000470: WHO ICD-11 Symposium VI: Proposals and Evidence for ICD-11-- Substance Use Disorders and Related Conditions

chair Poznyak, Vladimir, World Health Organization - CH -

chair Gawad, Tarek, National Rehabilitation Center - AE -

speaker Poznyak, Vladimir, World Health Organization - CH -

XVI WORLD CONGRESS OF PSYCHIATRY

"FOCUSING ON ACCESS, QUALITY AND HUMANE CARE"

MADRID, SPAIN | September 14-18, 2014

Classification of disorders due to psychoactive substance use in the ICD-11:
an update from WHO

speaker Saunders, John, University of Queensland - AU -

Rationale for changes in clinical descriptions of disorders due to substance use and related conditions

speaker Medina Mora, Maria Elena, Instituto Nacional de Psiquiatria Ramon de la Fuente - MX -

Field testing of substance use disorders and related conditions in the process of ICD-11 development

000521: By opening the therapeutic horizon addicted patients from a transdisciplinary vision

chair Gregorio, Alvarez Tejerina, Clinica de Salud mental Crecer - AR -

speaker Diego, Monti, Clinica de Salud Mental Crecer - AR -

Biological Psychiatry addictions

speaker Celeste, Alvarez Capin, Clinica de Salud Mental Crecer - AR -

Conceptual foundations of transdisciplinary

speaker Priscila, Ferraro De Maria, Clinica de Salud Mental Crecer - AR -

Psychometric Scales experiences of addicted patients

speaker Jorge, Valverdi Pucheta, Clinica de Salud Mental Crecer - AR -

The role of therapeutic activities in the field of addictions

000542: The Impact of Trauma on Substance Abuse and the Consequences for Care

chair Clerici, Massimo, University of Milano-Bicocca - IT -

chair Krausz, Michael, University of British Columbia - CA -

speaker Di Giacomo, Ester, - IT -

Family and Antisocial Personality Disorder: maternal role and its declinations

speaker Krausz, Michael, - CA -

Childhood Trauma and Substance Use Among Vulnerable Populations and How Psychiatry could deal with it

speaker Rosenthal, Richard, - US -

Victimization and re-victimization, long term consequences of childhood trauma on development

speaker Malyuta, Ruslan, - CH -

Most at Risk Adolescents (MARA) in Ukraine

000661: THE COMPLEXITIES OF PSYCHOPATHOLOGY IN SUBSTANCE ADDICTION

chair Varandas, Pedro, Secretary of the Portuguese Society of Psychiatry - PT -

XVI WORLD CONGRESS OF PSYCHIATRY

"FOCUSING ON ACCESS, QUALITY AND HUMANE CARE"

MADRID, SPAIN | September 14-18, 2014

- speaker Musalek, Michael, Anton Proksch Institut - AT -
Alcohol addiction and bipolar II disorders
- speaker Di Petta, Gilberto, Psychiatric Hospital of Naples - IT -
Addiction psychiatry: psychopathology of a chemical mental disorder
- speaker Ramalheira, Carlos, Centro Hospitalar e Universitário de Coimbra - PT -
Brief discussion around and beyond the concept of dual pathology - a psychopathological perspective
- speaker Messas, Guilherme, Faculty of Medical Sciences - Santa Casa of São Paulo - BR -
Phenomenological psychopathology of psychoses in substance addiction: the origins of diversity
- 000666: Ketamine Abuse
- chair Tang, Wai Kwong, The Chinese University of Hong Kong - HK -
- chair Dargan, PI, Guy's and St Thomas' NHS Foundation Trust and Kings Health Partners - UK -
- speaker André, Schmidt, University of Zurich - CH -
The mechanism underlying ketamine effects on the mismatch negativity with implications for the pathophysiology of psychosis
- speaker Yanhui, Liao, Central South University - CN -
A study of ketamine dependence using structural and functional magnetic resonance imaging.
- speaker David M, Wood, Guy's and St Thomas' NHS Foundation Trust and Kings Health Partners - UK -
Toxicity associated with novel ketamine analogues.
- speaker Ni, Fan, Guangzhou Medical University - CN -
Symptomatology of chronic ketamine abuse.

Similarities and differences across chemical and behavioral addictions. Implications for treatment

Chairs: Enrique Echeburúa, Nady El Guevaly
