

Pleasure, novel psychoactives and the brain's basement:

What is known and what the EU-Madness Project will hopefully clarify

Public Lecture

by Professor Gaetano Di Chiara

*Professor of Pharmacology and Pharmacotherapy at the University of Cagliari, Italy
Partner of the EU-MADNESS Project investigating Novel Psychoactive Substances (NPS)*

Thursday 12th March 2015

Whitelands College, Gilbert Scott Lecture Theatre 5.00 pm – 6pm

Professor Di Chiara will discuss the brain's responses to recreational drugs and address the concerns about recently emerging novel psychoactive substances (NPS) describing how the EU-MADNESS Project* is dealing with these. Professor Di Chiara is a distinguished neuroscientist and an expert in this field of research.

* EU-MADNESS = EUropean-wide, Monitoring, Analysis and knowledge Dissemination on Novel/Emerging pSychoactiveS: integrated EU NPS monitoring & profiling to prevent health harms and update professionals (an EU-funded project). www.eumadness.eu

Venue :

University of Roehampton

Whitelands College

Holybourne Avenue

London SW15 4JD
